The World Leader in Custom-Made Spinal Pelvic Stabilizers

Providing Whole Body Wellness for More Than 55 Years

The Most Recommended Stabilizers by Doctors
WHAT IS A SPINAL PELVIC STABILIZER?

A Spinal Pelvic Stabilizer is placed in your shoe to help improve your body’s balance, posture, and alignment. Stabilizers are the only orthotics designed to support all three arches of the foot. By providing proper support for your feet, Stabilizers help create a balanced foundation for your body. Correcting problems in your feet has amazing benefits that may surprise you!

Our Stabilizers can help increase your strength, enhance your athletic performance, and keep you feeling energized – even at the end of the day. Stabilizers are available in many styles and features, depending on your needs and the shoes you choose to wear.

They’re Unique – Just Like You

Custom-made from a weight-bearing foam cast or digital scan of your feet, Foot Levelers’ technicians take 16 exact measurements to create your pair of custom-made Stabilizers. Your lifestyle, age, weight, activity level, and condition are also considered in their creation.

WHY DO I NEED STABILIZERS?

Contrary to popular belief, many people with foot problems experience little or no pain in their feet. Instead, the pain is transferred to other areas of your body. Your feet are the foundation of your entire body, and having proper posture is the best way to support your body. If you have weakness or unstable positioning in either foot, it can contribute to postural problems throughout the rest of your body.

By balancing your feet, Stabilizers help improve your posture, enhance your body’s performance and efficiency, reduce pain, and contribute to your total body wellness.
WHAT ARE THE DIFFERENT TOP OPTIONS?

There are four basic tops used for Stabilizers.

**LUXURY**
A soft Lambson Leather™ top that is durable and moisture resistant with a 2-year warranty on the top. This is ideal for the average person and activity level.

**SMART**
Moisture control with Dryz™ and temperature control with IntelliTemp™. Ideal for those with perspiring feet and in extreme temperatures.

**COMFORT**
A soft TechCeł™ top for comfort that is ideal for those on their feet more than 50 percent of the day.

**TOUGH**
A durable moisture-resistant leather top for extreme activities. Also great for athletes that create a lot of friction on the surface of the Stabilizer.

WHAT IS THE BENEFIT OF MULTIPLE PAIRS OR COMBOS?

When the foot hits the ground, everything changes™ so you should be supported all of the time, not just half the time. Most people wear different shoe styles, and one type of Stabilizers will not fit in all shoes (in most cases). Multiple pairs and Combos allow you to remain supported, no matter what shoe you wear.
The Elite is our top-of-the-line Stabilizer and includes maximum support, comfort and durability. Only Elites come standard with the Dynamic Response System™ for shock absorption and the Extreme Gait Cycle System® for protection throughout the gait cycle. Elite Stabilizers are optimal for most people.

**Zorbacel® Plus**

*Provides 75% more Zorbacel for shock absorption at heel strike.*

**DRS™**

*Creates stability, absorbs shock, and responds to the body’s movement.*

**StanceGuard™**

*Provides weight bearing support at midstance.*

**Propacel™ Plus**

*Provides 50% more Propacel propulsion on toe-off.*

**EXTREME GAIT CYCLE SYSTEM® + DRS™**

Different length Stabilizers fit into different types of shoes.
Elite is available in these 4 tops:

**LUXURY TOP**

- Ideal for most people
- Maximum support, comfort and durability
- Soft Lambson Leather™ top
- DRS™ and Extreme Gait Cycle System® for shock absorption

**SMART TOP**

- Ideal for people with sweaty feet
- Moisture control with Dryz™
- Temperature control with IntelliTemp™ for maximum support for perspiring feet
- DRS™ and Extreme Gait Cycle System® for shock absorption

**COMFORT TOP**

- Ideal for people who stand more than 50% of the day
- Soft TechCel™ top for comfort and maximum support
- DRS™ and Extreme Gait Cycle System® for shock absorption

**TOUGH TOP**

- Ideal for people who work in extreme environments
- Maximum support and durability with a moisture-resistant leather top for extreme activities
- DRS™ and Extreme Gait Cycle System® for shock absorption
Extreme Stabilizers are designed for extremely active people and include the Extreme Gait Cycle System® for maximum protection from heel strike to toe-off.

**Zorbacel® Plus**
*Provides 75% more Zorbacel for shock absorption at heel strike.*

**StanceGuard™**
*Provides weight bearing support at midstance.*

**Propacel™ Plus**
*Provides 50% more Propacel propulsion on toe-off.*

**EXTREME™ EXTREME GAIT CYCLE SYSTEM®**

- Durable, moisture-resistant leather top for extreme activities
- Combo includes Full Length and Dress Length
5TH AVENUE™ FOR WOMEN

Support for women's unique needs that gives the royal treatment with each step. 5th Avenue™ Stabilizers help eliminate the burning in the balls of women's feet when wearing heels. Women with sensitive feet will also benefit from the comfortable design. The stylish 5th Avenue™ Collection of Women’s Stabilizers is designed specifically for a woman’s unique postural needs, with a woman’s unique footwear in mind.

7/8 Length
Our 7/8-Length Stabilizer – unique to the 5th Avenue Collection of Stabilizers – is designed to extend farther into the forefoot of the shoe. This provides increased support and comfort to the ball of the foot, especially when wearing heels.

Zorbacel™
Provides shock absorption at heel strike.

Propacel™
Provides propulsion on toe-off.

Different length Stabilizers fit into different types of shoes.
5th Avenue is available in these 4 options:

**5TH AVENUE™ LUXURY**
- Designed for women's dress flats up to a 1” heel
- Soft Lambson Leather™ top

**5TH AVENUE™ LADY LUXURY**
- Designed for women's heels between 1” and 2”
- Soft Lambson Leather™ top

**5TH AVENUE™ ILLUSION™**
- Designed for the average woman’s shoe
- Provides maximum comfort with a soft top and bottom layer of TechCel™

**Combo**
- ITEM#1373
- Full Length
- ITEM#1370
- 7/8 Length
- ITEM#1371

**Combo**
- ITEM#1374
- Full Length
- ITEM#1372

Different length Stabilizers fit into different types of shoes.
Are you an avid golfer – either amateur or professional? Do you have sensitive feet, or have more serious foot health concerns? If you answered “yes” to either question, then Foot Levelers’ Specialty Spinal Pelvic Stabilizers (ParFlex Plus® for golfers and UltraSofthotics™ for highly sensitive feet) may be just what you’ve been looking for. Each style offers custom-made quality, exceptional comfort, and three-arch support.

**PROFILE®**

**Low profile for slip-on shoes**
- Ideal for shoes whose manufacturer’s lining cannot be removed without causing damage
- Naturally moisture resistant Lambson Leather™ top for extra comfort and durability

*ITEM* #1112

**GOLF: PARFLEX PLUS®**

- Ideal for golf shoes
- TechCel Lite™ top layer for extra comfort
- Two magnetic strips built into each Stabilizer*
- Zorbacel® heel pads for shock absorption
- StanceGuard™ for variable firmness and flexibility during lateral weight shifts
- Increases club-head speed and drive distance and reduces fatigue (*JMP T, 1997-2001*)

*ITEM* #1401

*Do not use products with magnets if you are wearing a pacemaker or electrical implant of any kind, or if you are pregnant.

**AQUAGUARDS™**

**Designed for wet activities**
- Great for those who perspire excessively
- Top layer of our special non-slip, sure-grip material Hydropel™
- Zorbacel® heel pad for shock absorption
- StanceGuard™ system for variable firmness and flexibility

*ITEM* #152

*ITEM* #153

WHAT PEOPLE ARE SAYING:

“I have been a Foot Levelers user for almost two years. During this time I have experienced a significant improvement in the stability of my lower back. Until now, I have only used Foot Levelers’ Spinal Pelvic Stabilizers in my dress and casual shoes. My doctor suggested that I purchase Stabilizers designed specifically for golfers, the ParFlex Plus®. As a low handicap golfer I thought the claims of increased distance and shot reduction were a bit much, but decided to give them a try anyway. From the very first golf ball I struck with the Stabilizers in my golf shoes, I experienced an amazing feeling of stability and balance. I have been playing with Stabilizers for almost 30 days now and have recorded some of my lowest scores of the season. Coincidence? I don't think so! Thanks for making the recommendation!!” Sam R.

“For many years I had been suffering from recurrent pain and stiffness related to surfing. Every time I would take a fall while surfing and suffer a whiplash injury to my neck it would take weeks to recover. But recently I was prescribed a pair of custom-made Spinal Pelvic Stabilizers from Foot Levelers. I have never worn foot supports up until now and I cannot believe how good the improvement has been in my neck and upper back. The pain and stiffness I used to suffer almost daily has disappeared. My adjustments hold better and last longer and if I hurt myself in the surf, my recovery is almost instant!” Jerry W.
Once you have experienced the comfort that Spinal Pelvic Stabilizers can provide, the next step is Shoethotics®! Available exclusively from Foot Levelers, Shoethotics take a stylish shoe and add a removable, flexible, custom-made Spinal Pelvic Stabilizer.

Look What Other Patients Are Saying About Their Foot Levelers’ Products

“I am writing to let you know how satisfied I am with the orthotics that I ordered two weeks ago. It’s amazing what orthotics can do for a person’s walking ease. I used to feel like an old woman when I walked. I can now keep up with my significant other when we walk at the mall. Thank you for a better outlook on life.” Carol L.

“Foot Levelers have made my life a lot better. For years, I could not stand or walk on hard surfaces without my legs and back having serious pain. With Foot Levelers, I can walk and stand on hard surfaces for a much longer period of time.” Ted W.
